PROFESSIONAL SUMMARY

I am a passionate Frontend Developer with a strong foundation in creating responsive and user-friendly web applications. My expertise lies in HTML, CSS, JavaScript, and React.js, enabling me to build interactive and dynamic user interfaces.

PROJECTS

Task-Manager: (<https://github.com/lokeshbhaskar/Task-Manager>)

- Developed a full-stack Task Manager web application with secure user authentication using JWT and Context API. Designed and implemented RESTful APIs using Express.js to handle tasks, user management, and reports. Built a responsive and intuitive user interface with React.js and Tailwind CSS, ensuring a seamless user experience across devices. Integrated Axios for efficient communication between the frontend and backend, enabling real-time task management functionality.

Resume Analyzer: (<https://resume-analyzer-chi.vercel.app/>)

- The Resume Analyzer is a web-based application designed to analyze resumes against job requirements, providing valuable feedback and an Applicant Tracking System (ATS) score. It helps users optimize their resumes for better job matching and increased chances of selection
